## FOUNDERS

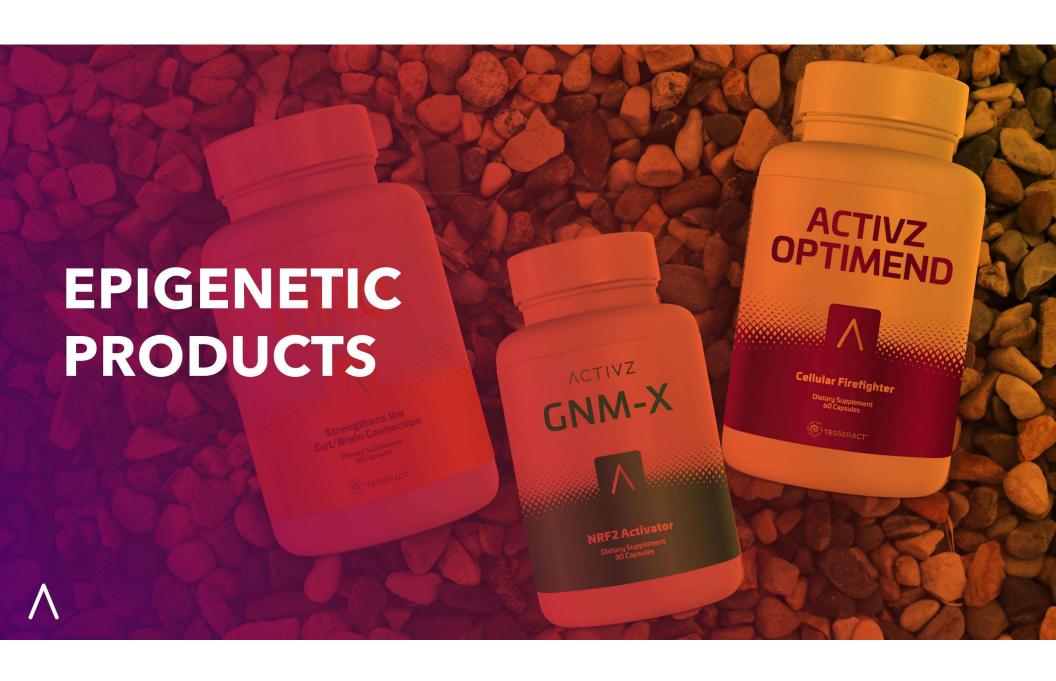

RYAN THOMPSON ACTIVZ PRESIDENT

DAVID BROWN
ACTIVZ CEO

We are focused on helping people become better and finding ways to lift individuals to new heights through health, self-improvement and financial independence.

We are leading the way with the most advanced epigenetic cellular defense products available and will continue to actively develop products and programs designed to optimize human potential.

# How did you feel when you were 20 years old?

- How was your energy?
- Were you hurting?
- What could you do?
- How much strength did you have?

All thanks to

Nrf2

#### What is Nrf2?

**Nuclear Regeneration Factor 2** 

It is a protein inside each cell.

It activates and optimizes thousands of genes.

Nrf2 is Active up to age 20

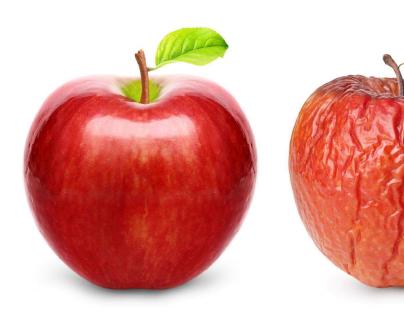

Without Nrf2, the genes fail and cause the cells to stop producing **antioxidants**, which leads to oxidation, inflammation, diseases, and aging.

#### **AS TIME PASSES...**

The cells weaken, and their defense capacity decreases, accelerating their oxidation state, which is why we begin to age faster.

#### **OXIDATIVE STRESS = CELLULAR OXIDATION = AGING**

Thanks (or no thanks) to oxidative stress, we age every second due to the continuous bombardment of free radicals against our cells.

#### **OPTIMEND**

CELLULAR FIREFIGHTER

Contains ingredients proven to:

Support a Healthy Inflammatory Response.

Reduce minor aches and pains.

Support joint mobility and flexibility.

#### **Nrf2 Activation**

Dr. Joe McCord (PhD Biochemistry)
Dr. Alan Gao (MBA, PhD in Molecular Biology)
Dr. Brooks Hybertson (MBA, PhD in Analytical Chemistry)

• More than 20,000 published studies on Nrf2.

- Occurs at the cellular level.
- Regulates the genes associated with oxidation so that the system works properly.
- More than 25 years of research.
- PB123/GNM-X patented formula 10 times more powerful than their other Nrf2 Activators.

#### CyLoc & DexKey

Al Czap (Founder, Former Owner, Thorne Research, Inc. (sold 2010) Publisher, Founder Alternative Medicine Review, LLC)

- Patent-pending proprietary science.
- New molecular delivery technology.
- Isolates molecules of an active ingredient at a nano-level scale.
- Breakthrough technology ensures that the active nutrients reach the intended target in the body, thus achieving maximum absorption (Optimal bioavailability of active ingredients.)
